# Our Role Today

We are helping to deliver the Marine Management Organisation's 'Enhancing Stakeholder Engagement' project, funded by the European Maritime and Fisheries Fund.

We are working alongside 4 other coastal partnerships in the new marine plan areas across England

There will be another 3 workshops (1 more specifically cross-border) in North West England over the next year or so.

# Workshop 1:

Exploring cross-border marine planning policies

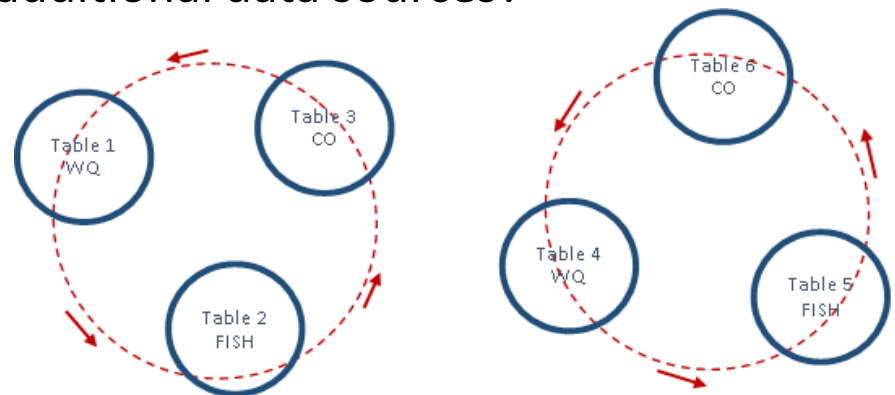

‘Across the Sands of Dee...’

21<sup>st</sup> August, Chester

We will be considering 3 policy areas – Water Quality, Co-existence and Fisheries. You will have the opportunity to comment on all 3.

1. What do you think about the implementation of the policy from a cross-border perspective?
2. What are your thoughts around how the policies would be monitored cross-border.
3. Do you have specific spatial or temporal cross-border concerns for the policy?
4. Do you have any suggestions for additional data sources?

At the end of the first 30 minutes you will move to the next table and policy theme.

# Workshop 2:

## Exploring options for cross-border stakeholder engagement in marine planning for the Dee Estuary & Liverpool Bay

‘Across the Sands of Dee...’

21<sup>st</sup> August, Chester

We'll be working our way through the questions below to determine **up to 3 preferred options** for facilitating stakeholder engagement in cross-border marine planning.

1. Who are the stakeholders with a cross-border interest?
2. What do stakeholders want from cross-border stakeholder engagement?
3. What do stakeholders consider is the value of cross-border engagement for the Welsh Government and the Marine Management Organisation?
4. What are the options for opportunities or partnership structures to facilitate cross-border stakeholder engagement?
5. Question 5: Identification of preferred option(s)
6. Question 6: Future resourcing and funding ideas

The preferred options from each table will be fed back at the start of the plenary discussion.
